

在会议中添加应用 (TransMeet)

The screenshot shows a Microsoft Teams meeting interface. The main area displays a large pink circle with the text "SA" and the message "Waiting for others to join...". The top bar includes a search bar with the placeholder text "Type 'is:' to narrow your search to Messages, Files or more" and a row of icons for Chat, People, Raise, React, View, Controls, Notes, and Apps. The Apps icon is highlighted with a red arrow. On the right side, the 'Apps' panel is open, showing a search bar with the text "trans" and a list of applications. The application "TransMeet-local" is highlighted with a red arrow, and its "Add" button is also highlighted. Other applications listed include Translit RSI, TransMeet, Real Time Translator, Langfinity AI Translation, and Interprefy-Translation. The bottom of the Apps panel has a "Get more apps" button.
